Data Analyst with hands-on experience in SQL, Python, Power BI, and data modelling, focused on turning raw data into actionable business insights. Brings 12 years in analytical education, translating into strong pattern recognition, structured problem-solving, and clear stakeholder communication. Skilled in data cleaning, exploratory analysis, and dashboard development, with a growing interest in data-driven decision-making in business environments.

SKILLS

Technical Skills: Power BI, SQL, Python, Microsoft Excel, Google BigQuery, GitHub, ETL, Data Cleaning, EDA

Analytical Skills: Analytical Thinking, Problem Solving, Pattern Recognition, Stakeholder Communication & Reporting

EDUCATION

Bootcamp in Data Analytics

Le Wagon

remote • 04/2025 - 06/2025

- Queried and transformed large datasets using SQL (BigQuery) to prepare structured, analysis-ready tables.
- Performed data cleaning, feature engineering, and exploratory data analysis using Python.
- Built interactive Power BI dashboards and reports to communicate insights to non-technical stakeholders.
- Applied data validation and quality controls to ensure high analytical accuracy.

Master's degree in Music Theory and Composition

Universidade de Aveiro

Aveiro, Portugal • 09/2005 - 06/2012

- Developed advanced analytical reasoning, structural decomposition, and pattern recognition skills.
- Built strong information structuring, synthesis, and communication abilities.

PROJECTS

E-Commerce Customer Analysis 06/2025

- Analysed customer and order data to uncover behavioural and demographic drivers of revenue.
- Applied K-Means clustering to segment customers into actionable personas tied to revenue share.
- Built a Random Forest model to identify the strongest predictors of order value.
- Delivered findings as prioritized, business-facing recommendations.

Chinook Digital Music Store — Business Performance Analysis 2026

- Conducted end-to-end SQL analysis across revenue, customer behaviour, catalog, and sales performance.
- Used window functions, CTEs, and self-joins to answer layered business questions.
- Combined SQL analysis with Python visualizations to communicate findings clearly.

WORK EXPERIENCE

Musical Analysis Teacher

Esproarte

Mirandela, Portugal • 01/2012 - 09/2025

- Applied structured analytical reasoning to break down complex systems and extract meaningful patterns.
- Developed strong quality control and validation practices through continuous evaluation and feedback.
- Communicated complex concepts clearly to diverse audiences, improving engagement.
